

# EVO BG 250 - 350 - 500

CONCRETE MIXER

**Applications:** Traditional machine built using the classic and reliable transmission system with cast iron gears and V belt.

MACHINE FOR NON EC COUNTRIES

\*machine equipped with pneumatic wheels accessory

Easy-access cabin with the possibility of installing various motor options

Machines for non-EC markets

## TECHNICAL DATA

		250	350	500
Drum capacity	lt	250	350	500
Output*	lt	195	300	430
Mixes per hour	N°	26	26	26
Weight without motor	Kg	208	210	290
Dimensions L x W x H	Cm	187 / 92 / 148	187 / 92 / 148	202 / 115 / 163

\*Machine output varies according to type of material and drum inclination

## CHARACTERISTICS

- Cast iron crown and pinion transmission
- V belt transmission
- Steel drum built in 3 parts
- Semi pneumatic rubber wheels with steel rims
- Drawbar for handling
- Available on request in 4 wheel version
